The screenshot shows a development environment with two windows. The top window is a code editor with a dark theme, displaying the following C++ code:

```
#include <iostream>
using namespace std;

int main() {
    int bil[10];
    bil[0] = 1;
    bil[1] = 4;
    bil[2] = 5;

    cout << bil[0] << endl;
    cout << bil[1] << endl;
    cout << bil[2] << endl;

    cout << bil[0] + bil[1] + bil[2] << endl;
    return 0;
}
```

The bottom window is a terminal or command-line interface window titled "C:\Users\USER\Documents\C++\tp2_3\bin\Debug\tp2_3.exe". It displays the output of the program:

```
